

NOCIL Limited is committed to sustainability as it is a key element that drives our actions to practice green Chemistry. We understand the concern of the supply chain operation and is committed to establish goal for Sustainable Development.

This policy is applicable to all service providers, contractors, suppliers, transporters, and business partners of NOCIL Limited. As a leading rubber chemical manufacturing company our aim is to be World Class, Customer Focussed, Innovative Organization in the field of Rubber Chemicals and to be partner of choice for all our customers across the globe by delivering reliable products manufactured through responsible operations and sustainable sourcing.

We are committed to encourage the service provider, contractor, supplier, transporters, and business partners to meet all applicable legal and other requirements which have a significant impact on Quality, Health, Safety, Environment, and other applicable ESG (Environmental, Social and Governance) aspects.

We are committed to give preference for procurement of locally available materials/products of high quality to minimize NOCIL's overall Environment footprint and to procure goods and services from suppliers who comply with NOCIL supplier code of conduct.

We are committed to monitor ESG related aspects in supplier's operation along with criteria of quality which are mentioned in NOCIL's Supplier Code of Conduct to develop an action plan and to work with suppliers, vendors, and business partners for continual improvement of processes.

We welcome feedback from all stakeholders to strengthen our systems and processes. We will measure and report progress towards this policy and review performance on a periodic basis. The content and implementation of this policy will be reviewed periodically, and actions taken accordingly including the sharing of good practices throughout the NOCIL's operation.
